Article: **Trouble sleeping?** It is important to get a good sleep. No matter how busy your schedule is.

Hi there, I've been experiencing some discomfort asking, how can I... 10:41 am

I see, can you please describe the pain to me? How long have you been feeling it? 10:28 am

It's a sharp pain that comes and goes. I've been experiencing it for about a week now. 10:41 am

Alright, have you noticed anything that triggers the pain or makes it worse? 10:28 am

Tina Masson

Project Brief

I aim to provide a comprehensive solution for mental health challenges by offering a supportive platform where individuals can freely express their concerns and seek professional and peer support.

Problem Statement

Many individuals experience significant stress, anxiety, and confusion related to careers, studies, relationships, and general mental health. They often feel isolated and unable to discuss their problems due to fear of judgment, stigma, or lack of understanding.

Additionally, access to affordable and timely mental health support is limited, exacerbating the problem.

Solution

I aim to create a user-friendly app and website that provide accessible, confidential, and effective mental health support. The platform will offer a safe space for communication, a range of self-help resources, and tools for tracking mental health progress, addressing the barriers to seeking help.

Goals

01

Ensure Mental Well-being

Provide consistent, accessible support to improve users' mental health and emotional well-being.

02

Build a Supportive Community

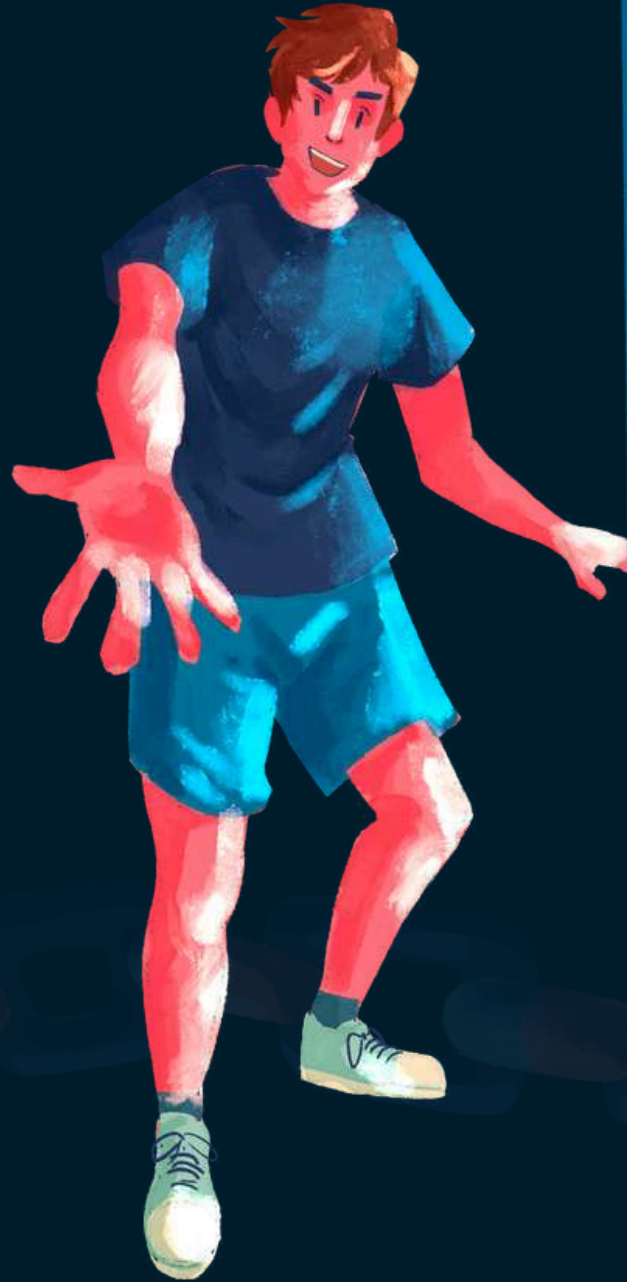

Foster a community where users can connect with peers and professionals for guidance and support.

03

Promote Awareness

Increase awareness and reduce the stigma surrounding mental health issues.

Objectives

Develop a User-friendly Platform

Design and launch an intuitive app and website for mental health support.

Offer Professional Guidance

Provide access to trained listeners, therapists, and peer supporters.

Utilize Technology for Progress Tracking

Implement tools for users to monitor and track their mental health improvements.

Expand Access and Affordability

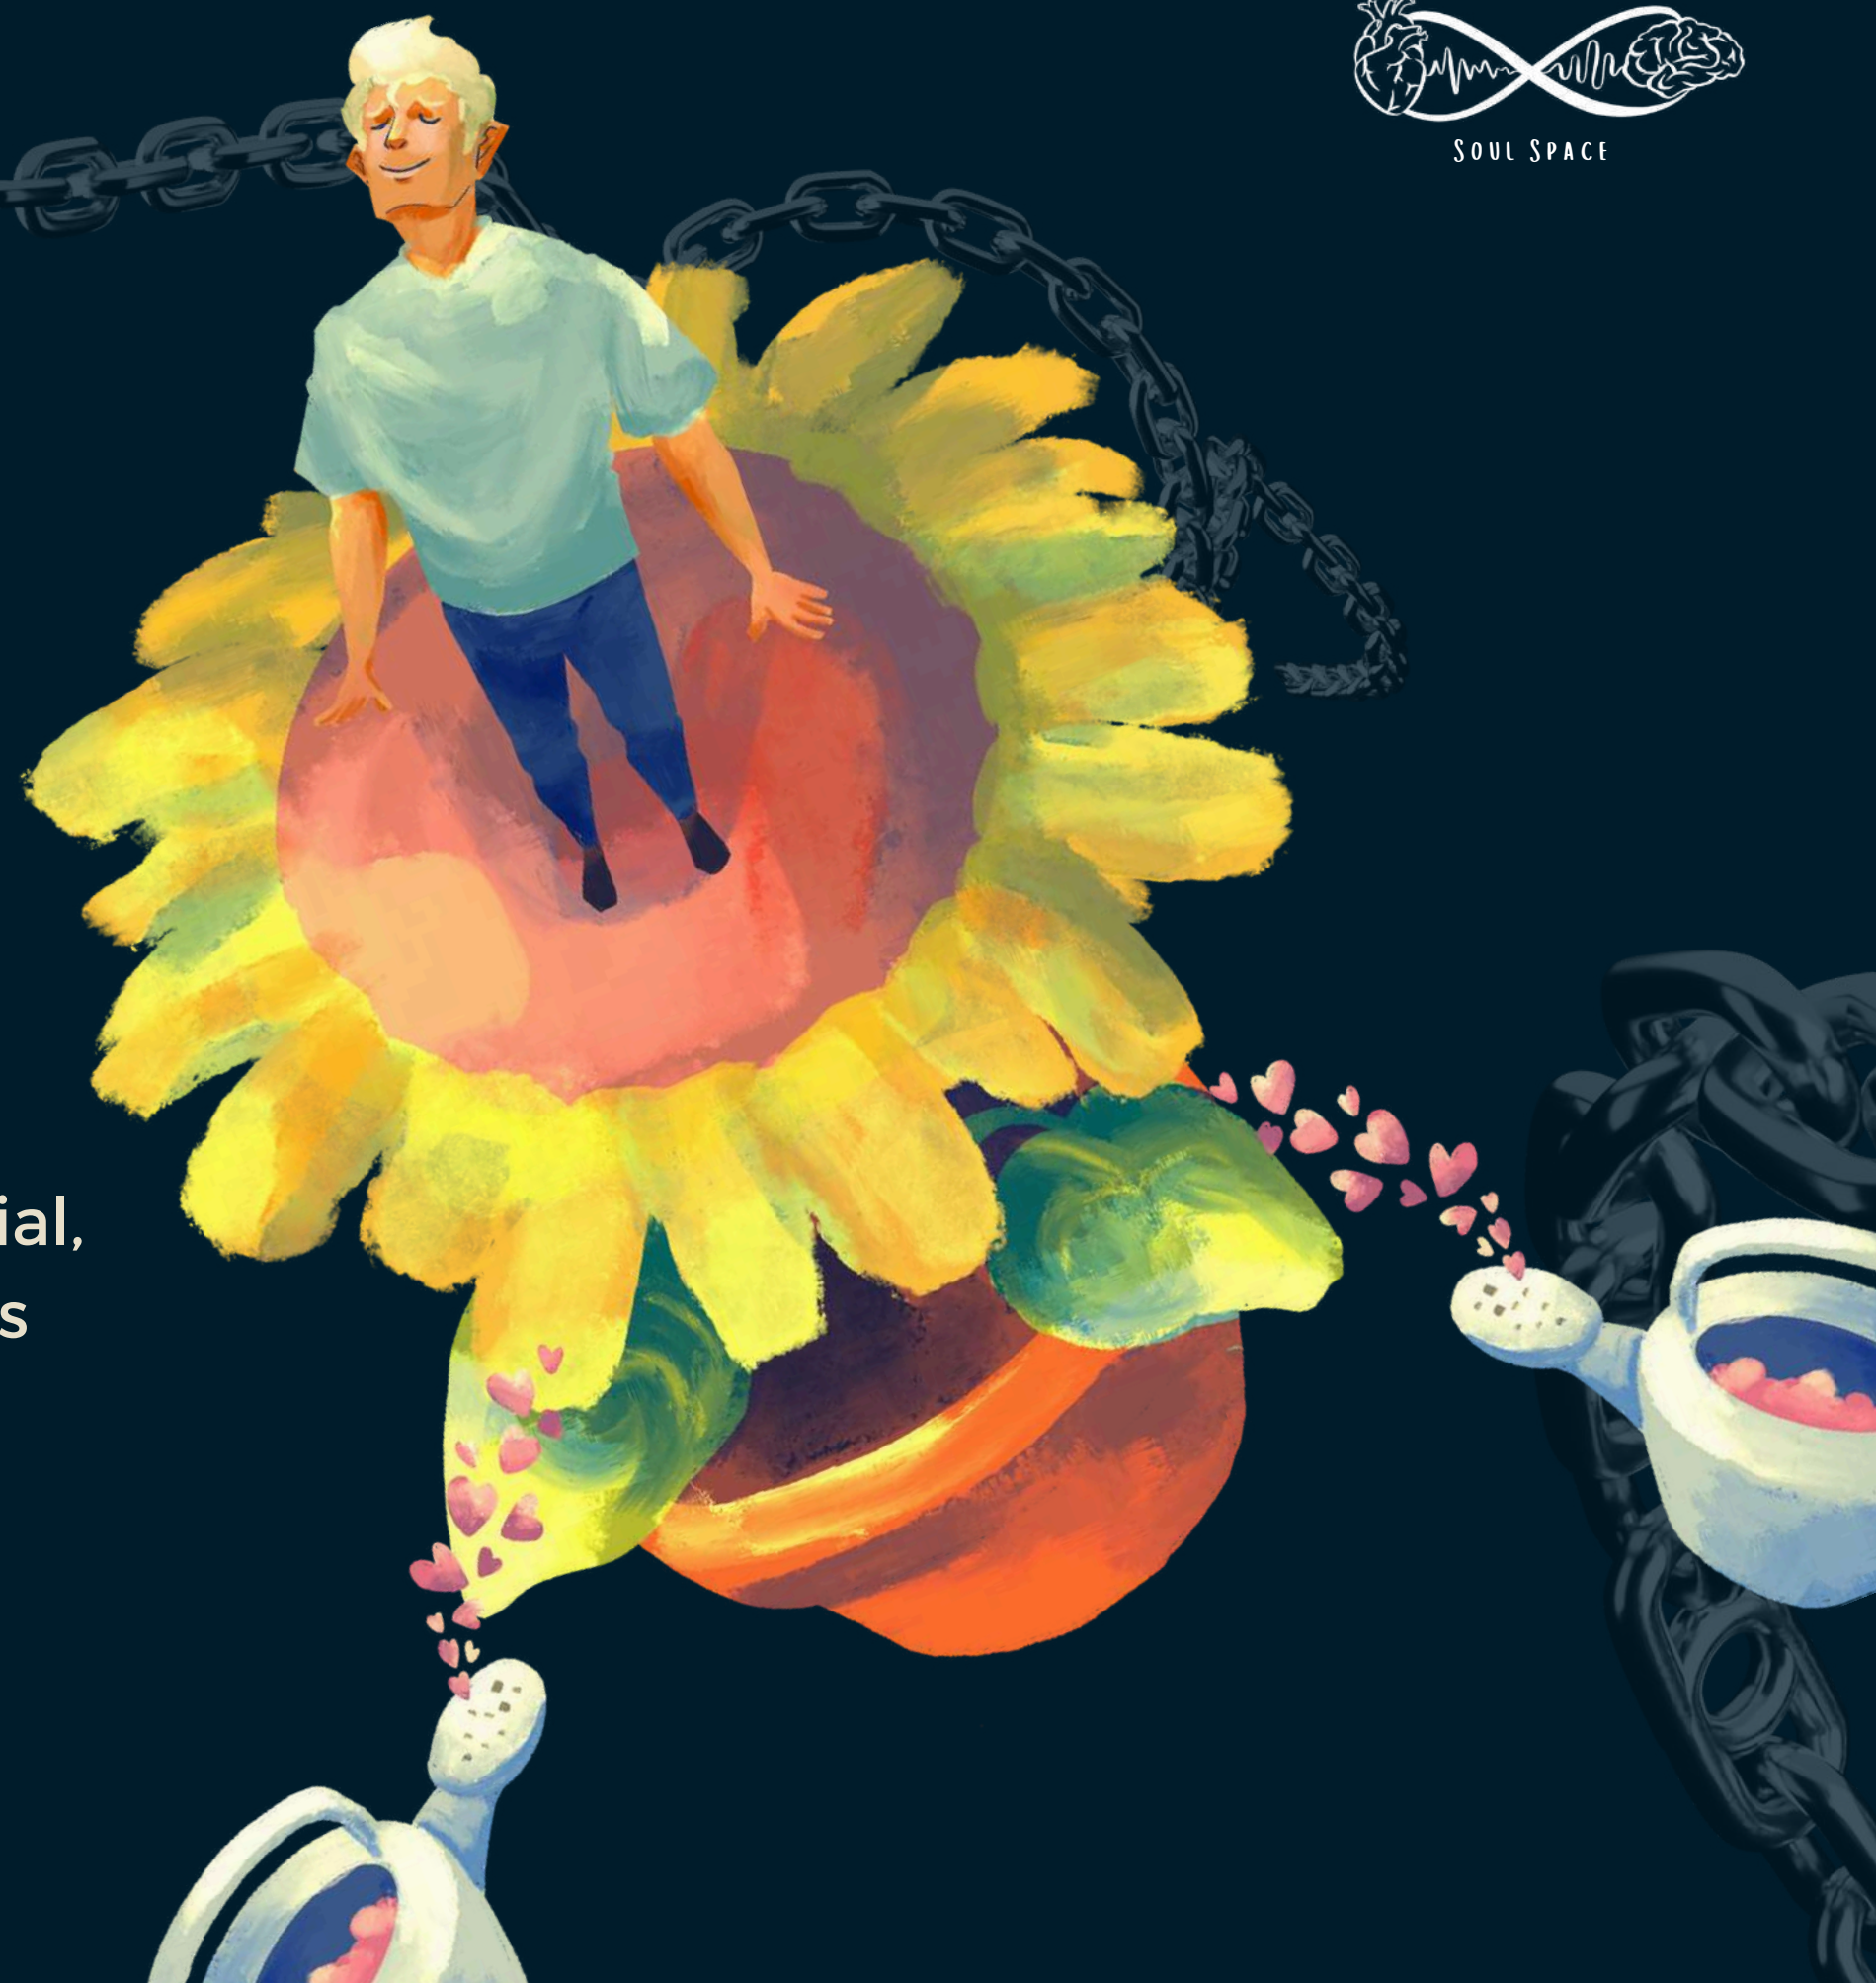

Ensure the platform is accessible and affordable for a wide range of users, with regular updates and improvements based on user feedback and emerging mental health trends.

Business Model Questionnaire

1

What is your Business Idea?

My service offers a user-friendly app and website called Soul Space, providing accessible, confidential, and effective mental health support for individuals experiencing stress, anxiety, and confusion in various aspects of life.

2 What benefits do your customers gain from your business idea?

Confidential Support

Safe and private platform for discussing mental health issues.

Professional Guidance

Access to trained listeners, therapists, and peer supporters.

Convenience

Easily accessible support through text chat, voice call, and video call.

Self-help Resources

Tools and resources for managing and tracking mental health progress.

3 What is your target group?

Individuals experiencing stress, anxiety, and confusion about studies, careers, relationships, and general mental health. Includes those who prefer online mental health support.

4 Which Sector and Market are related to your company?

- **Sector:** Mental Health and Wellness.
- **Market:** Digital health services and online therapy

5 Which Long Term goal do you want with your company?

To become a leading digital platform for mental health support, fostering a global community where individuals can connect, heal, and thrive.

6 What opportunities and threats do you see?

Opportunities: Increasing awareness of mental health, growing demand for digital health services, potential for partnerships with healthcare providers and educational institutions.

Threats: Stigma around mental health, competition from existing mental health apps, data privacy concerns.

7 Which Market entry strategy are you planning for your company?

- **Strategic Partnerships:** Collaborations with mental health professionals, educational institutions, and healthcare providers.
- **Marketing Campaigns:** Targeted advertising on social media, partnerships with influencers, and awareness campaigns.

8

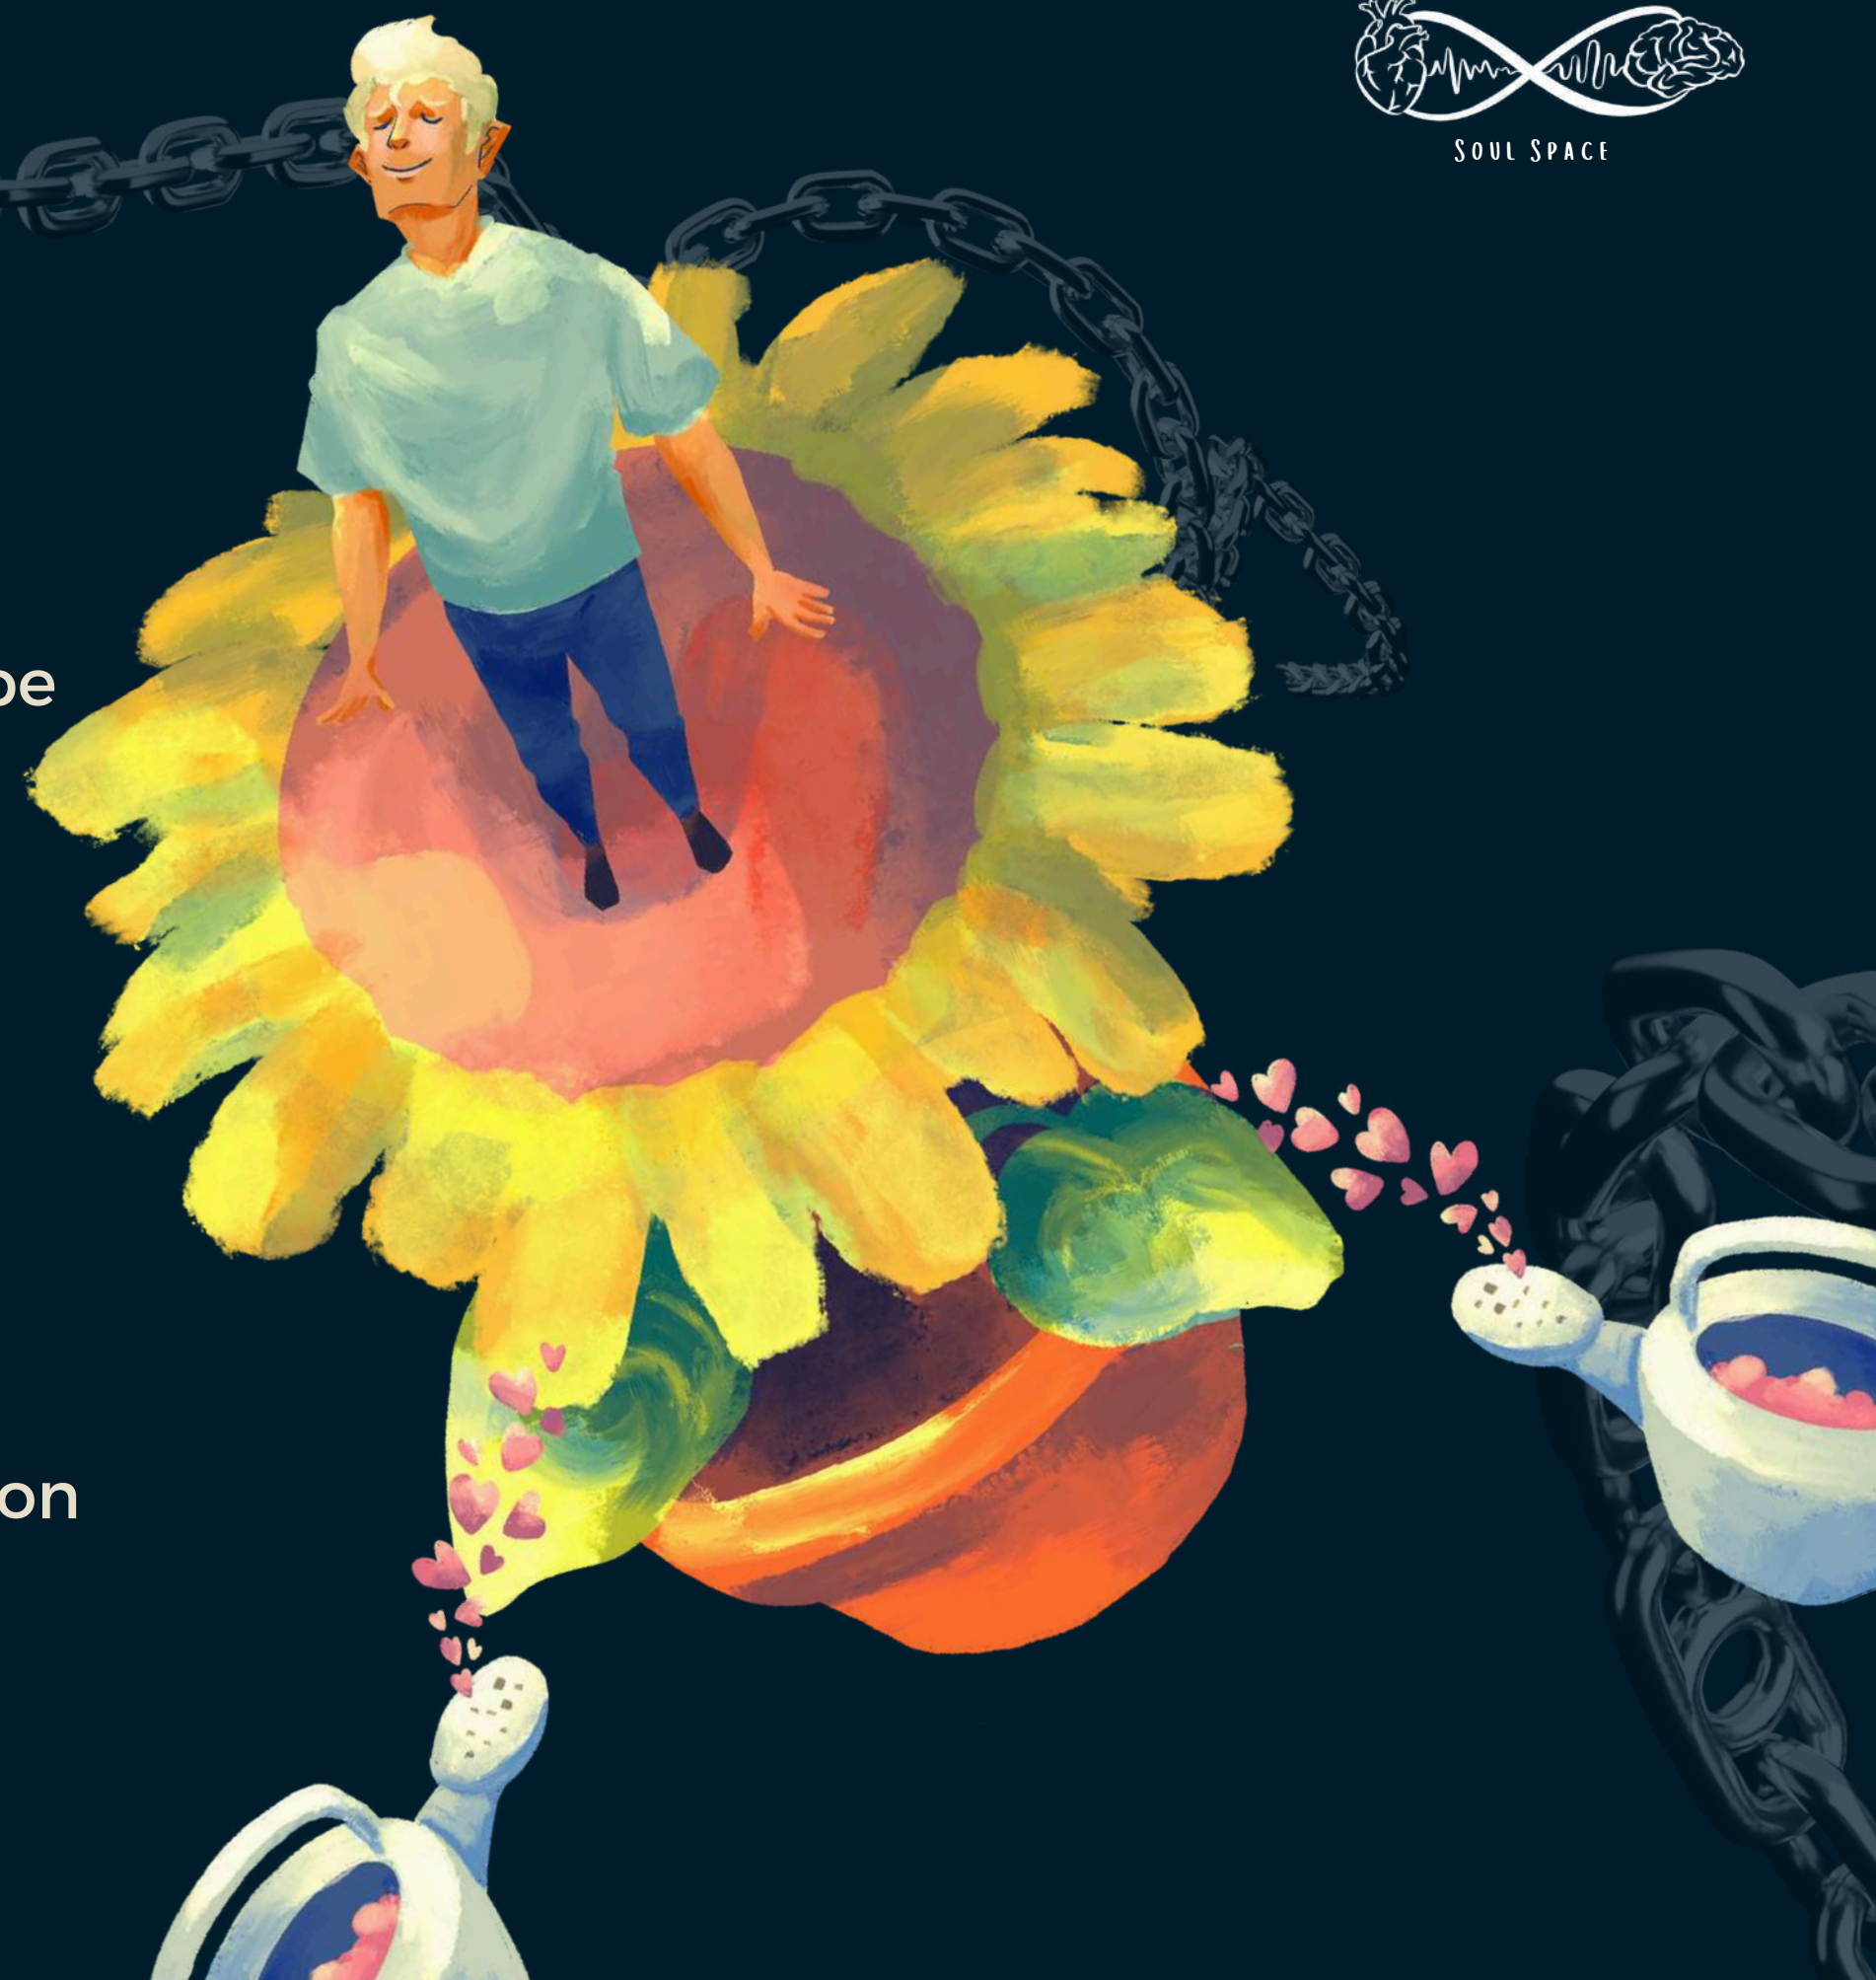

How large will the investment needs for your company be over the next 5 years?

Investment areas (development, marketing, maintenance, legal, staffing) needs are subject to market analysis and growth projections and will be determined accordingly.

9

How much profit and turnover planned to achieve for the next 5 years?

Revenue from subscriptions, in-app purchases, or advertising. Expense forecasting for development, marketing, and operations. Specific figures based on financial modeling.

Target Audience

People of all age-groups.

UX Vision

Who

Soul Space targets individuals across all age groups, including students, career professionals, and couples, who are seeking support for stress, anxiety, and other mental health concerns.

Where

Soul Space is available as an app on mobile devices and as a website, allowing users to access mental health support from anywhere with an internet connection.

What

Soul Space is a mental health app and website designed to provide accessible, confidential, and effective support through professional counseling, peer support, and self-help resources.

Why

Soul Space addresses the need for confidential and accessible mental health support, helping users manage their stress and emotional well-being effectively, especially when they might not have other options for professional or peer support.

When

Users should turn to Soul Space whenever they experience stress, anxiety, or other mental health issues, and need a safe and supportive environment to seek help and guidance.

How

Soul Space operates by providing users with easy access to professional counseling, peer support, and self-help resources. Users can navigate through categories like career, relationships, and personal well-being, whether on the app or website, ensuring they quickly find the help they need and can opt for premium features for personalized guidance.

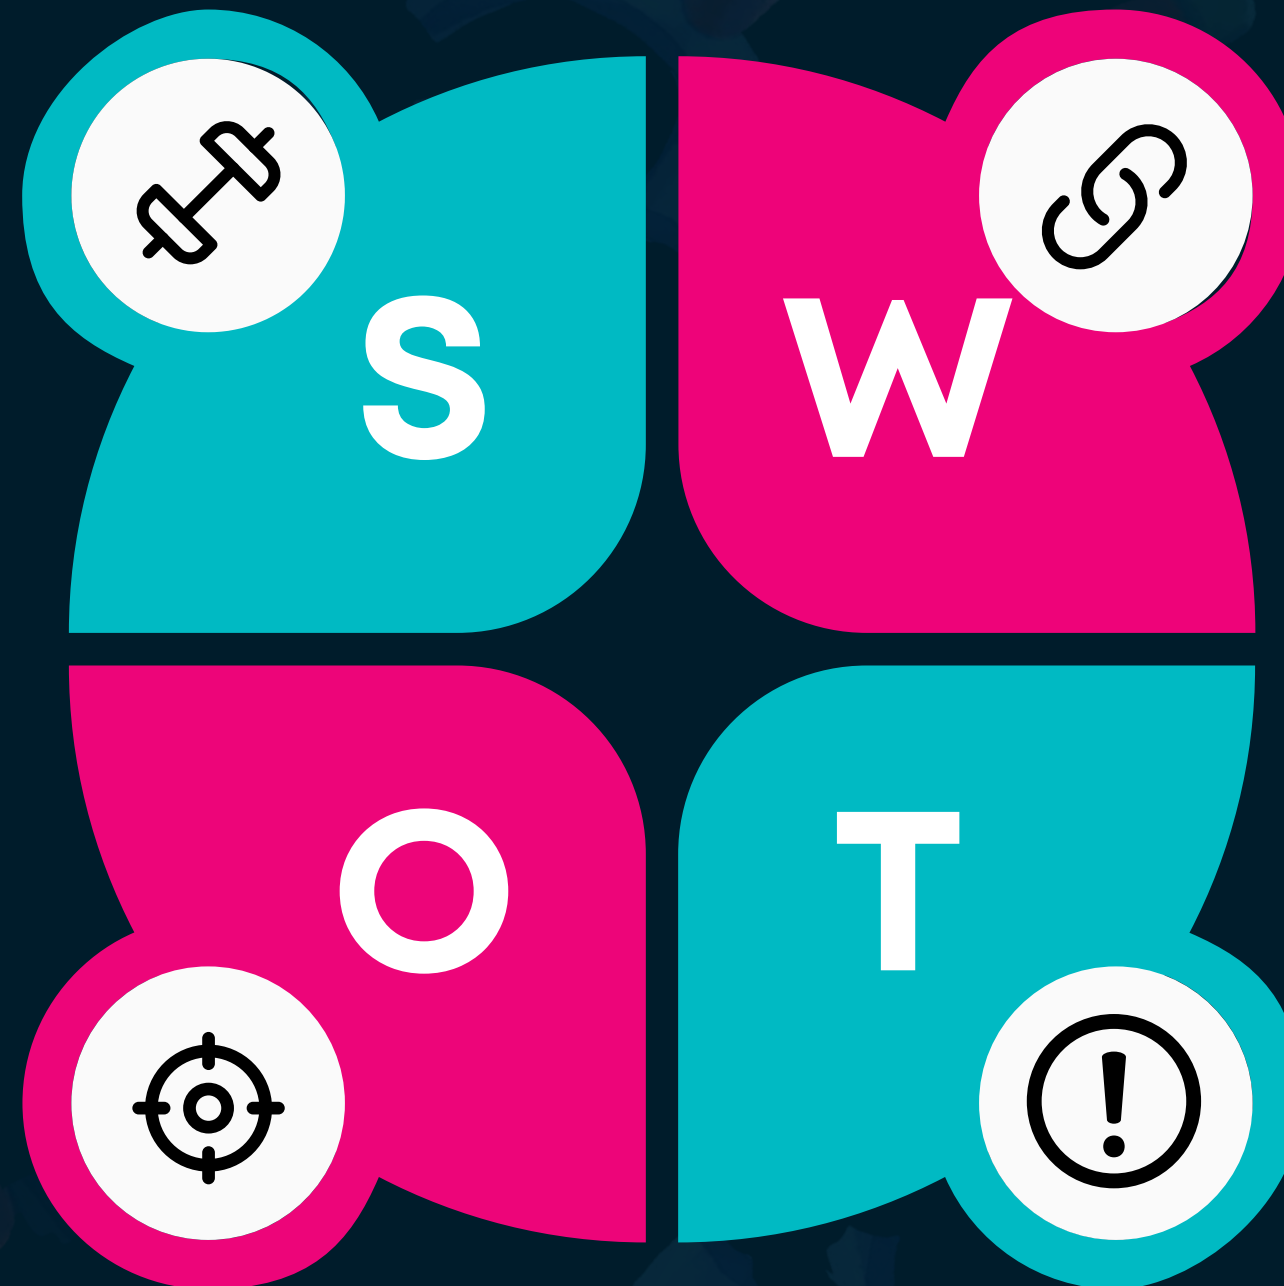

SWOT Analysis

Strengths

- **Comprehensive Support:** Multiple options like articles, chat, and calls.
- **Multi-Platform Access:** Available on app and website.
- **User-Friendly Design:** Easy navigation for diverse users.
- **Strong Privacy:** Focus on data confidentiality.

Opportunities

- **Mental Health Awareness:** Growing market for mental health solutions.
- **Tech Advancements:** Use AI for personalized support.
- **Global Reach:** Potential to expand globally.
- **Monetization:** Paid features can increase revenue.

Weaknesses

- **High Competition:** Strong rivals in the market.
- **Resource-Intensive:** Requires ongoing updates and maintenance.
- **Engagement Challenges:** Hard to keep users engaged long-term.
- **Frequent Updates:** Needs continuous improvement.

Threats

- **Intense Competition:** Risk of being overshadowed by bigger players.
- **Regulatory Issues:** Complex privacy laws to navigate.
- **Data Security:** Risks could harm trust.
- **Economic Uncertainty:** Users may be less willing to pay.

ADITYA

Aditya is a college sophomore balancing academics and a part-time internship.

Ambitious and aiming for success, he faces significant stress and anxiety from juggling between both the responsibilities. With limited time for social activities, Aditya struggles to manage his mental health.

DEMOGRAPHICS

 20 years old

 Male

 Single

 College Student and Part-time Intern

 Delhi, India

GOALS

- Achieve high academic performance and gain valuable work experience.
- Manage stress and anxiety related to academic and professional responsibilities.
- Maintain a healthy balance between work, studies, and personal life.

PAIN POINTS

- Overwhelmed by dual pressures of college and work.
- Difficulty expressing feelings and concerns to others, leading to feelings of isolation.
- Struggles with maintaining a work-life balance, leading to burnout.

NEEDS

- A confidential space to discuss his stress and anxiety.
- Tools and resources for managing stress specific to students and early-career professionals.
- Guidance on balancing academic, professional, and personal life effectively.

ADITYA
Persona 01

EMPATHY MAP

Persona 01
Aditya

USER STORY

Aditya needs a safe and supportive platform to manage their stress and anxiety while balancing their academic and professional responsibilities, so he can achieve success without compromising their mental health.

USER JOURNEY

STAGE 1 REALIZATION

Aditya begins to feel overwhelmed by the combined pressures of school and work. He notice that their stress is affecting their academic performance and mental well-being.

STAGE 2 DISCOVERY

While searching for stress management resources, Aditya comes across "Soul Space" through an online recommendation or a friend. He are intrigued by the platform's focus on both academic and professional stress management.

STAGE 3 ENGAGEMENT

Aditya signs up and explores the self-help tools and resources available for both students and professionals. He start using the journaling feature to track their thoughts and the guided meditations to manage daily stress.

STAGE 4 SUPPORT

Aditya participates in a peer support group tailored for students and early-career professionals. He also take advantage of career coaching sessions available on the platform to get advice on balancing their responsibilities.

STAGE 5 RESOLUTION

Aditya feels more in control of their stress, with improved academic performance and a better handle on work responsibilities. He continue using "Soul Space" to maintain their mental well-being and prepare for future challenges.

RAJ

Raj is feeling unfulfilled in his current role and uncertain about his career future. The stress at work is increasing, and this tension spills into his personal life. He seeks clarity on his career goals and relief from his stress.

DEMOGRAPHICS
